

# Ashley Horta Portillo

I am currently a sophomore pursuing a dual major in marketing and management. After graduation, I hope to obtain my real estate license and begin working as a realtor, gaining firsthand experience in the industry and building connections with clients. Over time, my goal is to develop the skills, knowledge, and network needed to open my own real estate firm, where I can combine my business education with my passion for entrepreneurship and property development.

I don't have much of a technical background besides the computer class I took with you during my freshman year. I learned a lot from that course, and I'm hoping to build on that knowledge and gain even more from this class. In terms of software, I mainly use Microsoft applications such as Word, Outlook, Excel, and PowerPoint, since those are the programs I rely on most for school assignments and work tasks.

I was born and raised in Reno, Nevada, and chose to attend the University of Nevada, Reno because it offers a strong education while also allowing me to stay close to my family, which is very important to me. Outside of school, some of my favorite hobbies include baking and going to the gym. Both of these activities give me the chance to take my mind off of school or work and focus on something that helps me relax and recharge. I also love to travel whenever I get the chance, since it allows me to experience new places, cultures, and perspectives. When it comes to movies, my favorite series would definitely be the Fast and Furious franchise—at least the first five films, which I think are the best of the bunch.
